

I am writing regarding K-LOVE radio. This station is very important to me and my community. It is our only source of contemporary Christian music and I do not want to lose this station. It serves the public interest by being a Christian alternative and spreads the good news of Jesus Christ. It's wholesome music and info that's safe for all ages. Please do not change this station to LPFM. I just can't imagine not having this station. Thanks for your time.
